

## What we've done

GISG has been at the heart of the development of gas safety related policy since its inception in 2000.

Since 2011 GISG has:

- Sponsored and sat on the Steering Group of the All-Party Parliamentary Gas Safety Group Preventing Carbon Monoxide report.
- Given evidence to the Communities and Local Government Select Committee Inquiry into Carbon Monoxide (CO).
- Responded to the Energy and Climate Change Committee's Inquiry into the effect of the Green Deal on the Building Regulations.
- Provided written evidence to the Health and Safety Executive's Reporting of Injuries, Diseases and Dangerous Occurrences Regulations 1995 (RIDDOR) consultation.
- Financially supported the Carbon Monoxide All Fuels Forum.
- Funded the All-Party Parliamentary Carbon Monoxide Group.
- Sponsored the Dominic Rodgers Trust's CO awareness DVD.
- Funded the Health and Safety Laboratory's Flues in Void research project.
- Contributed funding to the Gas Safety Trust CO Hotspots report.
- Responded to the Health and Safety Executive's Approved Codes of Practice review and was part of the industry expert review panel assisting the Health and Safety Executive with developing the Public Consultation launched in May 2013.
- Acted as advisors to ITV for the Coronation Street carbon monoxide storyline in January 2013.
